

Stroma Building Control

CIC APPROVED INSPECTOR SERVICES

buildingcontrol@stroma.com | 0845 621 11 11 | www.stroma.com/building-control

Building Control for domestic and commercial projects

Stroma Building Control is a CIC Approved Inspector offering building control services as an alternative to Local Authority Building Control (LABC). Working across the UK, Stroma Building Control offers a comprehensive service to check the compliance of our clients' projects against the Building Regulations. We are highly experienced working across all sectors including Domestic, Residential, Commercial, Mixed Use, Education, Retail, Leisure.

Our employees hold a wide range of qualifications and expertise in the Building Control sector ensuring efficient delivery of our services to meet client and regulatory requirements. We offer a wide range of compliance services which include, but are not limited to:

- ✓ **Fee offer forwarded**
- ✓ **Quote accepted**
- ✓ **Plan checked**
- ✓ **Consultations with appropriate statutory authorities (Fire and Water as appropriate)**
- ✓ **Site visits undertaken**
- ✓ **Commissioning data collated**
- ✓ **Final Certificate issued**

Choose Stroma Building Control

We understand the pressures of the construction industry and proactively work to ensure projects run efficiently. Our service supports your construction projects at every stage from design through to completion whilst remaining efficient and cost-effective. We maintain a highly professional and fully-trained workforce who hold all relevant accreditations and are experienced in both the private and public sectors.

Stroma Building Control provides a proactive and thorough approach, designed to identify and resolve risks as well as issues of non-compliance from the outset. We engage with clients, local authorities and other statutory authorities involved to aid our clients achieve with the least amount of inconvenience for your construction projects against the Building Regulations.

What do our clients say about us?

“

We have been using Stroma Building Control (formerly BBS) for many years for all our construction projects. The fees are fair and accurate with a quick quotation process. The inspectors are easy to work with and can easily be communicated with which is imperative at all times.

Detailed Planning Limited

”

“

We have worked with Stroma Building Control (formerly Greendoor) for a number of years and have found the team extremely helpful and professional adding to the success of many of our projects.

Lipton Plant Architects

”

“

A swift, efficient and professional approach which has assisted us in successfully achieving Building Regulation approval.

King Sturge (Jones Lang LaSalle)

”
