## Case Study: Commercial

**Client:** Gram Games

**Location:** The Aircraft Factory, 100 Cambridge Grove, London W6

**Contractor:** ODB Group

### Summary:

Stroma Building Control (formerly Greendoor Building Control) provided the Building Control to the ODB Group for Gram Games. We carried out an office fit-out in part to the ground floor of the former De Havilland aircraft factory in Hammersmith.

The modern and fresh design in the historic building creates the ideal open plan work environment.

Bleacher seating and relaxed staff areas allow staff the opportunity to gather together and discuss creative ideas.
