

Case Study: Commercial

- Client:** Petredec
- Location:** The Leadenhall Building, London EC4
- Contractor:** Loop Interiors LLP

Summary:

Stroma Building Control (formerly Greendoor Building Control) is very proud to have worked with Loop Interiors LLP for a number of years on wide selection of prestigious and successful schemes.

A recent scheme completed in one of London's iconic skyscrapers, the Leadenhall Building, included the delivery a 10,000 sq. ft. office space on the thirty-fifth floor, on a 12 week programme.

The project included a range of complexities, such as sprinklers and inner rooms, all completed in compliance with the regulations in the usual high standard and expectations of Loop Interiors LLP.
